Customizable

Our developer-friendly code is completely customizable so you can create the exact calendar you want.

Subscribe to your calendar

Easily import events from other calendars with our CSV Importer. Users can subscribe to event updates with iCalendar or Google Calendar.

Time zone support

Set the time zone for your events and keep everyone on the same schedule.

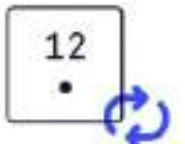

Multiple views

Choose between flexible calendar views and display your events by day, month, or in a list. Each view integrates seamlessly with your WordPress theme.

Featured events

Shine a spotlight on specific events to drive engagement and increase attendance.

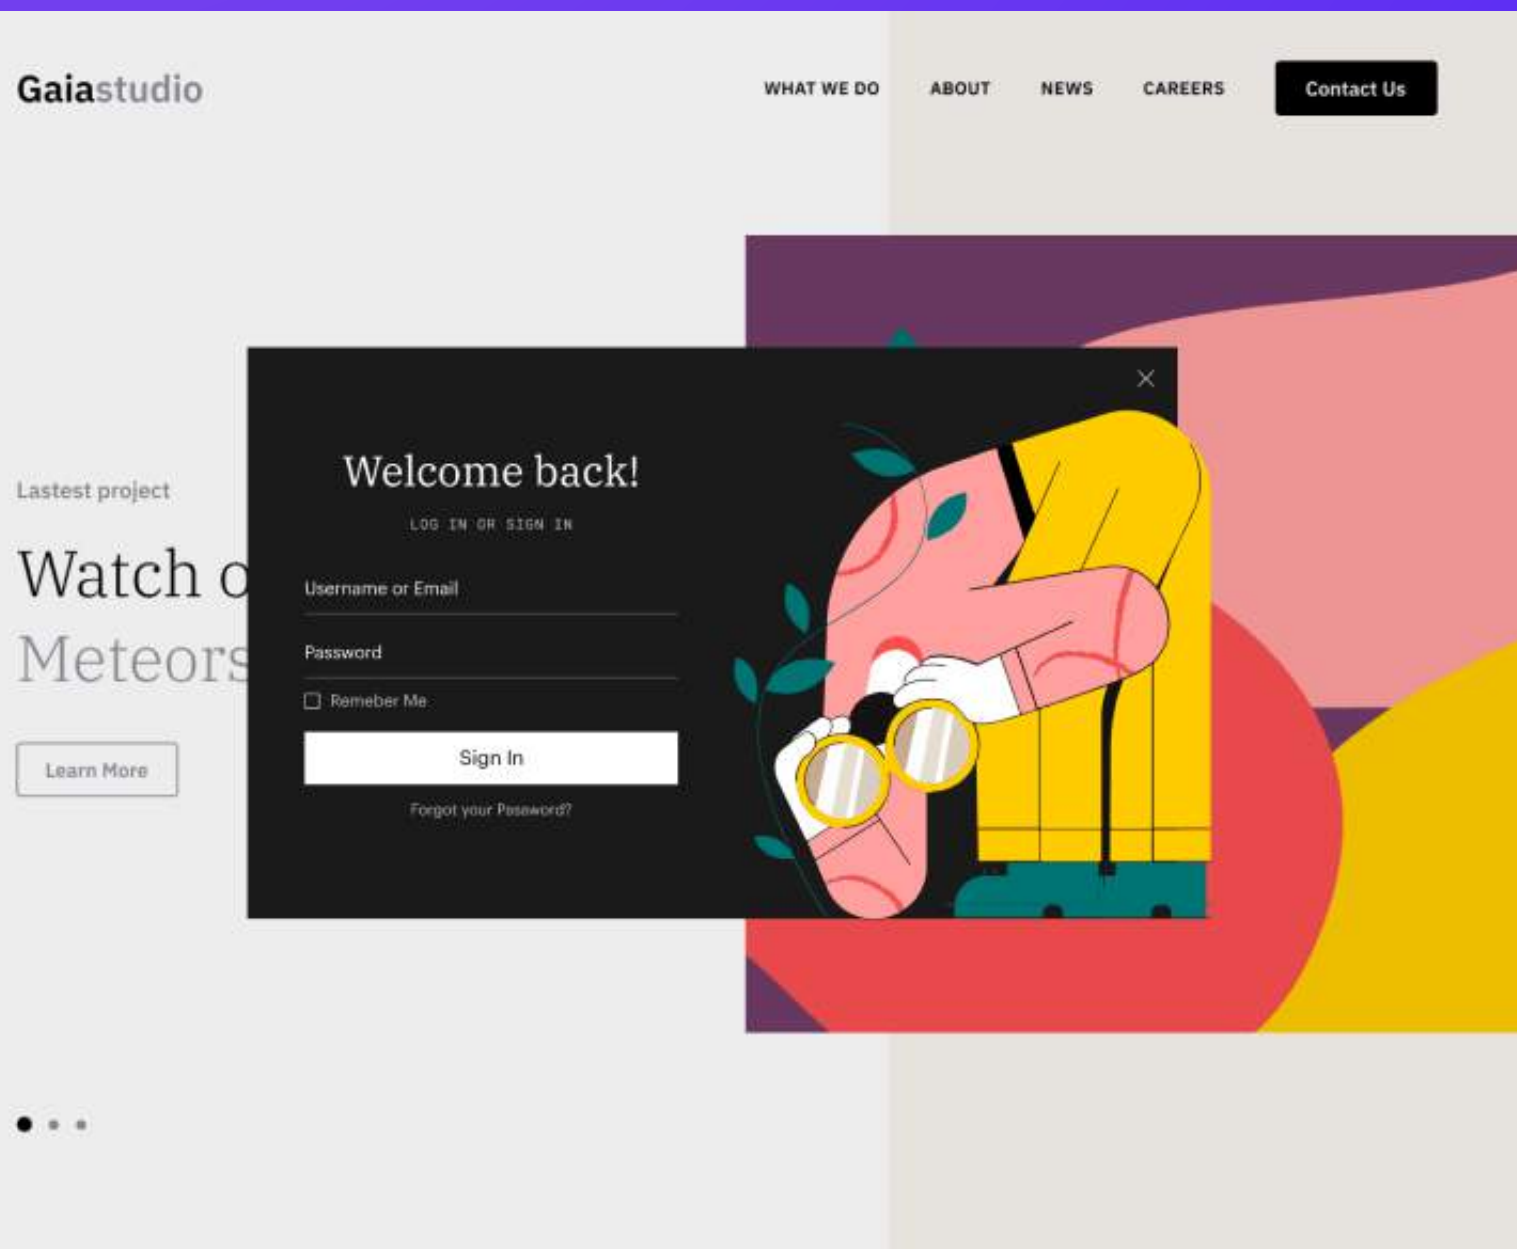

Recurring Events ⚡

Monthly, weekly, and custom recurring events and event series take the busywork out of calendar management.

Course Bundle

Create course bundles and sell multiple courses together. Elevate course sales by bundling courses.

Content Drip

Schedule lessons, quizzes, and assignments for publishing at specified times.

Multi Instructor

Allow multiple instructors in the same course to improve collaboration. Scale the site up!

Google Meet

Easily conduct video meetings for Tutor LMS courses and individual lessons with Google Meet.

Reports

Generate in-depth statistics of courses, sales, students, and more on your eLearning site.

E-Mail

Send out automated and customized emails on various Tutor LMS triggered events.

Calendar

Let students see assignments' due date, upcoming ones, and more in a wonderful event calendar.

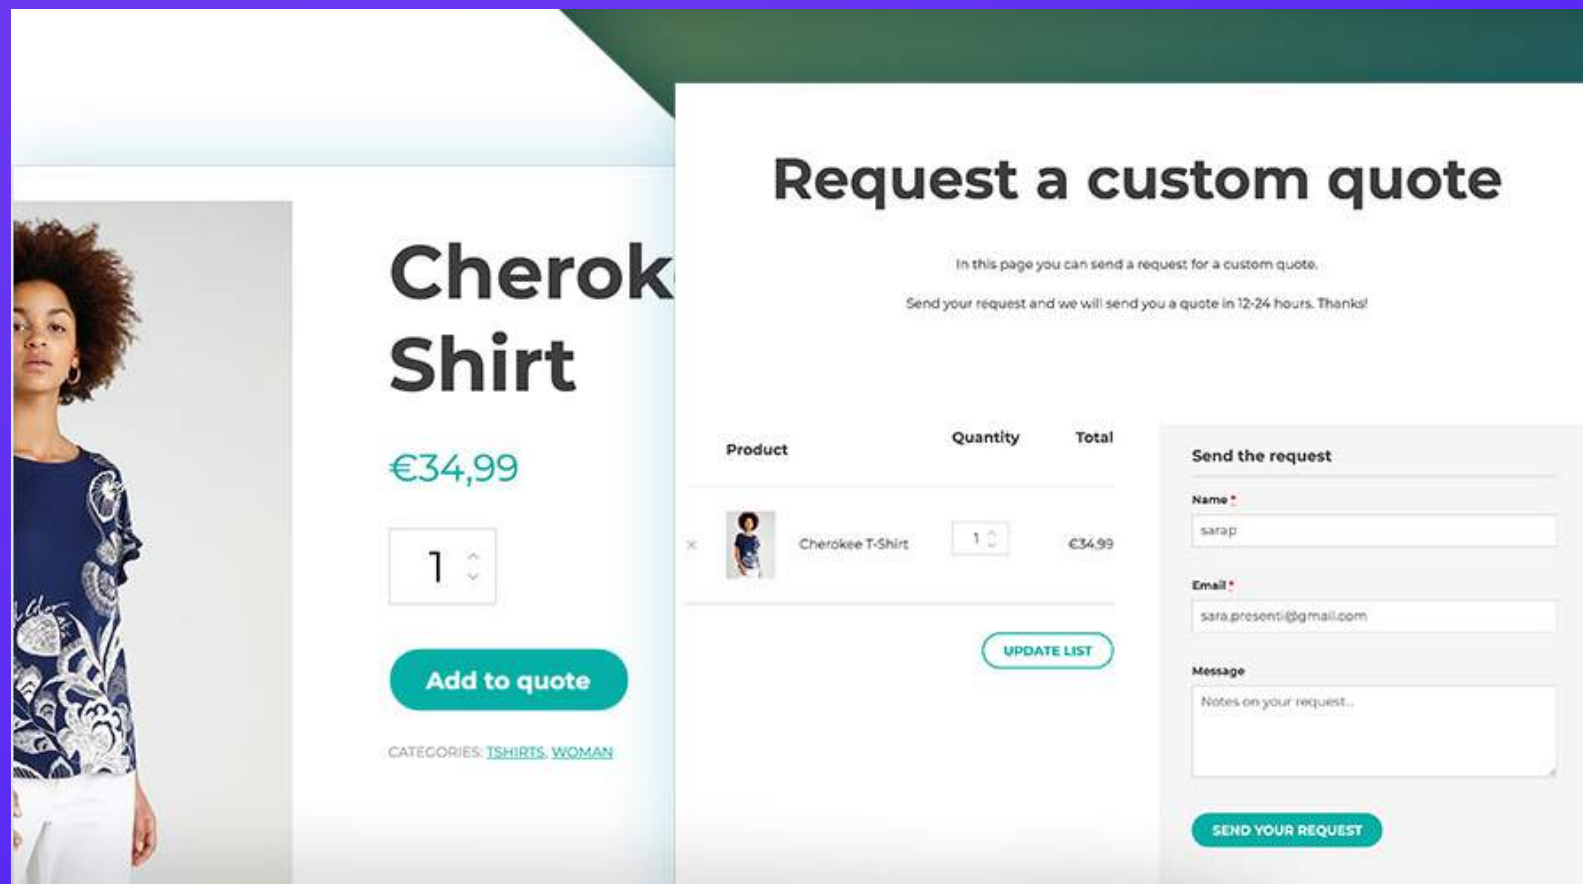

Notifications

Get and serve notifications on assignments, quizzes, Q&A, enrollments, instructorship, and more.

COTIZAR

yith

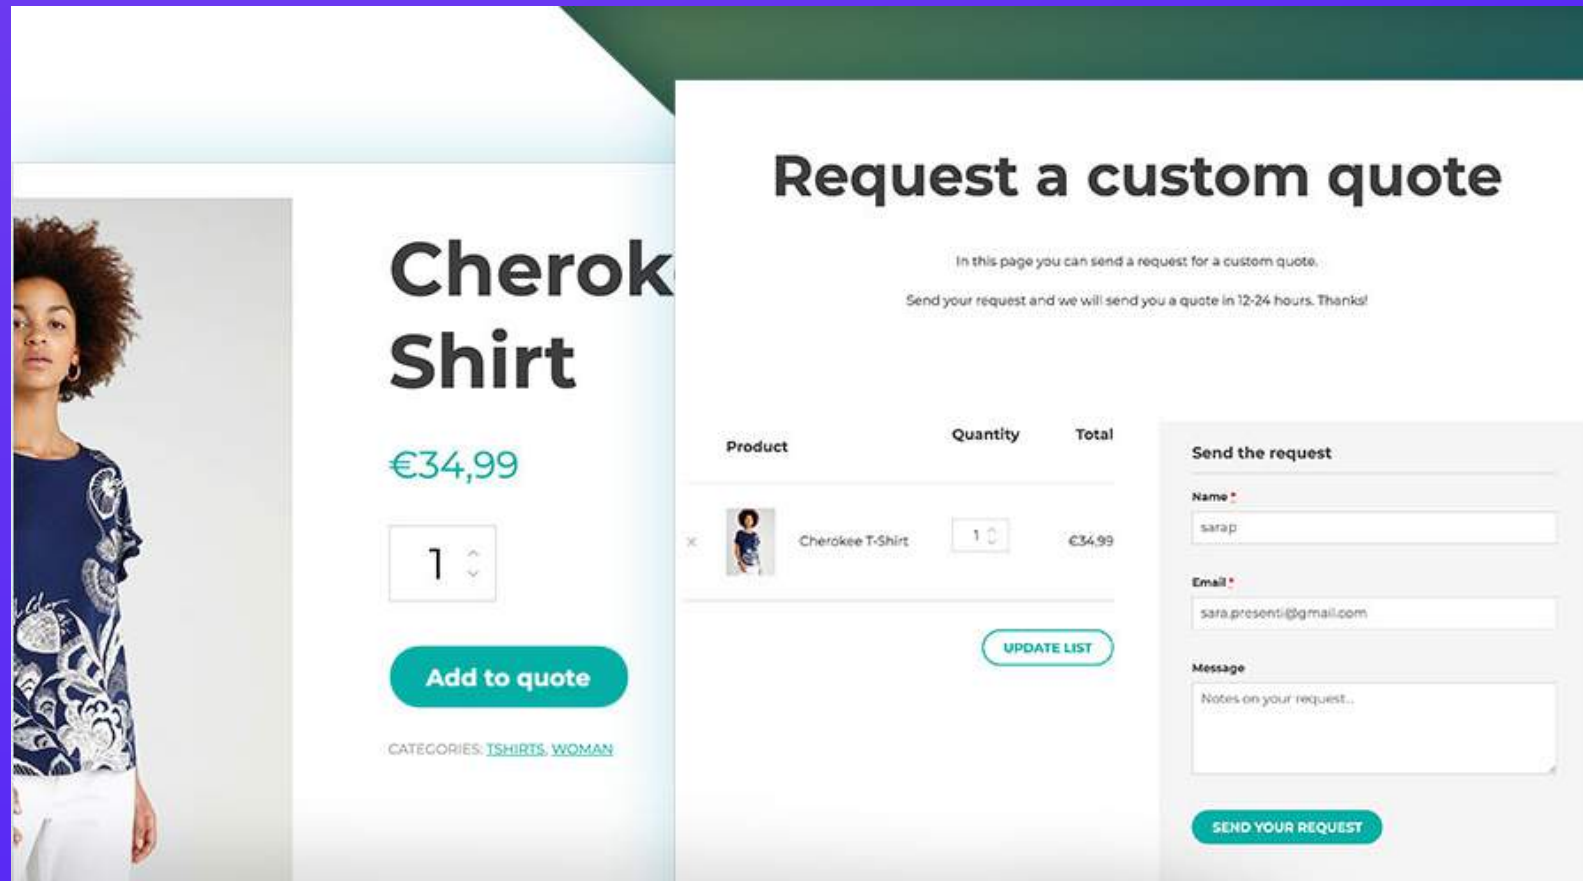

Cómo puedes beneficiarte de ello:

- ▶ vende productos y servicios sin precio fijo en tu catálogo y brinda a los clientes la opción de solicitar presupuestos personalizados;
- ▶ oculta el precio y el botón Añadir al carrito de cada producto para que los clientes se comuniquen contigo para recibir una oferta personalizada según sus necesidades;
- ▶ oculta los precios de tus competidores para crear una estrategia de precios competitiva;
- ▶ aprovecha el principio de escasez enviando presupuestos temporales y notificando a los clientes cuando la oferta está a punto de caducar para alentarlos a comprar de inmediato;
- ▶ administra fácilmente cada paso del proceso de presupuesto. Cuando un cliente acepta el presupuesto, será redirigido a la página de pago para pagar y el presupuesto se convertirá en un pedido;
- ▶ crea presupuestos manualmente para los clientes que se comuniquen contigo por teléfono o físicamente en tu tienda/oficina

Testimonials

Text testimonials look less authentic and boring.

I LOVE Testimonial and so does our entire company! In just one month of being a customer, I've been thoroughly impressed by the speed of innovation and new features released. The team is constantly open to my feedback and not only listens to what I have to say but makes my ideas happen.

Amy Santiago - Founder, Play AI
